Please state circumstances in which you have known the applicant:

.....

College Life

Students who come to live at St Mark's College can expect a lot more than accommodation. They become part of a vibrant community where they will be mixing with others from diverse backgrounds, nationalities and beliefs and will make long lasting friendships and contacts. The College has a wide range of facilities such as a library, music rooms, a computer room, a gymnasium and recreational areas. A tutorial program is in place to assist first year students to successfully make the transition from school to university study methods. Other activities include debating, a wide range of sports, musical evenings, drama and community service activities.

In order to gain the most benefit from the College environment, the students should be prepared to contribute their talents towards one or several of the areas mentioned, be it academic, sporting, cultural or community service. They also have to learn to live in an atmosphere of tolerance, caring and mutual support, and the College Club (which is autonomous) plays a large part in developing these qualities.

Students are selected on the basis of academic merit, willingness to commit themselves to their studies, and their potential to contribute to College life.

If you need any clarification on how to complete this form, please do not hesitate to contact the College.

Please provide comments about the applicant in the following academic areas with reference given about College life.

Thank you for agreeing to supply a reference for the above applicant.

How well and in what capacity do you know the applicant?
