

St Mark's College ADELAIDE

Scholarships, Prizes and Bursaries

St Mark's College seeks to inspire the pursuit of academic excellence and the development of good character and commitment to community service in all its students, and to ensure that, as far as possible, financial need is not a barrier to gaining the benefits of an all-round collegiate education at St Mark's.

Through the generosity of our collegians, friends and other benefactors, St Mark's is able to provide financial assistance, including scholarships, prizes and bursaries, to a total value of over \$500,000 for new and existing students each year. In 2020, over 50% of our students received some form of financial assistance from the College.

Awards are made to new and returning students on the basis of academic excellence, financial need, commitment to serving the community, leadership potential, and extra-curricular activities.

To apply for a scholarship, please complete the scholarship application form available from the College [website](#). Only one form is required per applicant – the scholarship panel will review your application and consider you for all scholarships, prizes, and bursaries for which you may be eligible.

Many of our scholarships and prizes have been made possible through the generosity of alumni of the College who have been deeply grateful for the opportunities that St Mark's has given them, conscious that these opportunities have been made possible through the earlier generosity of others, and committed to handing on those opportunities to future generations of students. We hope that all members of the College, being grateful, will in time do their best to support those who come after them.
